

# Huawei produces photovoltaic panels in Angola

## Overview

---

How many MW of solar power will be installed in Angola?

The projects will be installed in the Moxico, Lunda Norte, Lunda Sul, Bie, and Malanje provinces, adding 296 MW of solar capacity and 719 MWh of battery energy storage system to the Angolan grid. The facilities will provide electricity to power one million consumers. Clean energy firm MCA Group has been tasked with the construction of the projects.

Does Huawei support Angola's green development strategy?

Through their partnership with Huawei, they are already on the path towards green networks and lower network OPEX which will undoubtedly support Angola's socio-economic and industrial development. Huawei actively supports the green development strategies of its operator customers.

Will Huawei reaffirm its role in Angola's digital transformation?

During ANGOTIC 2025, which kicks off tomorrow at the Talatona Convention Center in Luanda, Huawei aims to reaffirm its role as a strategic partner in Angola's digital transformation by showcasing technological advancements with direct impact on the country's sustainable development.

Are Huawei's innovative solutions aligned with Unitel's future energy strategy?

Unitel's Maintenance Department Director José Mavungo said Huawei's innovative solutions are highly aligned with Unitel's future energy strategy. Both sides are actively looking forward to further opportunities for cooperation.
