

# **Industrial dedicated inverter 12v**

## Overview

---

What is a 12 volt pure sine inverter?

High-Quality 12-Volt Pure Sine Inverters Get reliable power whenever and wherever you need it with 12-volt pure sine power inverters from The Inverter Store. These 12-volt units are generally used in cars or trucks, or smaller backup power systems, so they make an ideal option if you're looking for a portable inverter that you can take on the go.

What is a 12V power inverter?

Power inverters with more than 90% conversion efficiency and stable performance. The 12V power inverter has the functions of current protection, short circuit protection, over-voltage protection, reverse charging protection, power protection, and core protection.

What is a 12V 220V power inverter?

This inverter 12V 220V generates 1000-watt continuous and 2000-watt surge power which can be applicable for AC household appliances or electrical devices during work trips, road trips, camping, and so on. This power inverter has full safety protections, built-in fuses, and a temperature-controlled cooling fan, to protect your devices from damage.

What is a pure sine wave inverter?

This “pure” power is ideal for all kinds of electrical equipment but is especially important for delicate or sensitive electronics and electrical appliances, tools and medical devices. If you're looking for 12-volt inverters, AIMS Power offers a big selection of 12-volt pure sine wave inverters and accessories.

How much power does a sine wave inverter provide?

This inverter provides a half-second surge to 6000 watts – longer than other inverters in its class. With this pure sine wave inverter, 3000-watt power will be available for quiet, productive use. This product includes a thermally

controlled fan, allowing for increased efficiency and less noise.

What is a 3000-watt pure sine wave inverter?

Designed for harsh environments, it has been completely overhauled. Our 3000-watt pure sine wave inverter now boasts a dual GFCI outlet and is FCC certified. It is one of the cleanest and most efficient pure sine wave inverters on the market today. This inverter provides a half-second surge to 6000 watts – longer than other inverters in its class.
