

# **Iran Energy Storage Power Station EPC Company**

## Overview

---

What fuel is used to generate electricity in Iran?

Natural gas was the major fuel used to generate electricity in Iran in 2009, accounting for an estimated 56.8% of primary energy demand (PED), followed by oil at 40.8% and hydro power at 1.4%. [citation needed] As of 2010, the average efficiency of power plants in Iran was 38 percent.

How many thermal power plants are there in Iran?

In 2015, Iran and Russia signed an agreement regarding the construction of eight thermal power plants in Iran, with a total installed capacity of 2,800 Megawatts (MW). The investment per MW will be \$3.57 million (\$10 billion in total).

Who is energiran & why should you choose EPC company?

ENERGIRAN has more than 40 years of experience in oil and gas industry and is known as a prominent EPC company. ENERGIRAN has the ability to manage and supervise projects Correct commissioning is vital based on ENERGIRAN business strategy to the satisfactory operation of any plant or equipment. A schedule will be established with benchmarks.

What are EPC services?

The company has extended its services in the last few years to include EPC (Engineering, Procurement, and Construction) projects in electricity and power plants as well as metal and mineral industries, oil, gas, and petrochemical industries. These projects include engineering services, equipment supply and installation, and commissioning.

Does Iran have a power grid?

Iran's power grid has been connected to seven neighboring countries Afghanistan, Pakistan, Iraq, Turkey, Armenia, Azerbaijan and Turkmenistan [citation needed] and annually, exports 5.5 TWh of electricity. [citation

needed] Electric power industry in Iran has become self-sufficient in producing the required equipment to build power plants.

Can Iran build a gas turbine?

Iran can manufacture materials for over 80 percent of hydraulic turbines and over 90 percent of gas turbines. In the near future, Iran can become a major player in building power plant with advanced technology (2009). Iran planned to build its first indigenous gas turbines by 2015. [citation needed]
