

Ireland Energy Storage Vehicle Price Comparison

Overview

How much do electric cars cost in Ireland?

Electric cars in Ireland cost on average between €20,000 to €50,000 depending on the size and make of the car. There are several SEAI grants available to help with the purchase of electric cars worth up to €3,500. Electric cars produce zero carbon emissions and can be charged at home, or at public charging points.

What incentives are available for electric vehicles in Ireland?

The Irish government offers several incentives to encourage the adoption of electric vehicles, which can indirectly help reduce your overall running costs: SEAI Electric Vehicle Grant: An SEAI grant scheme of up to €3,500 is available for privately purchased new battery electric vehicles (BEVs) with a full price between €14,000 and €60,000.

How much does EV cost in Ireland?

Annual savings: By switching to an EV, a driver in Ireland could save approximately €1,163.10 per year on fuel costs alone. Example journey calculation: Petrol car: $200 \text{ km} \times €0.0951/\text{km} = €19.02$. EV: $200 \text{ km} \times €0.0176/\text{km} = €3.52$. Electricity cost: €0.0931 per kWh (Bord Gáis Energy's standard EV charging rate).

Are electric cars tax deductible in Ireland?

Electric cars have the lowest motor tax rate in Ireland (€120 per year), while petrol cars can have significantly higher tax depending on their emissions. Insurance costs for electric cars can sometimes be slightly higher than for petrol cars due to the higher value of EVs. However, this can vary depending on the model and your insurance provider.

Are electric vehicles coming to Ireland in 2024?

Although electric vehicle (EV) sales in Ireland have slowed in the last year,

fully electric, hybrid electric and plug-in electric hybrids still accounted for 45% of the new sales market during 2024. The Government is supporting EV take-up with grants and tax incentives and aims for 945,000 electric vehicles on Irish roads by 2030.

Is there a buyer's market for electric cars in Ireland?

While the global competition makes car manufacturing more challenging in many countries, as you can read here, the competition is creating a buyer's market in Ireland. From RTÉ Radio 1's News At One, fall in the number of electric cars sold in first half of 2024
