

Is Belgium a 5G base station

Overview

Which 5G network has the largest range in Belgium?

Surf superfast on the go on the 5G network with the largest range in Belgium. Telenet/BASE provides outdoor 5G coverage to 95% of the households in Belgium, according to the measurements conducted in april 2024 on behalf of the BIPT (Belgian Institute for Postal Services and Telecommunications).

Does 5G work in Belgium?

Operators are gradually deploying 5G in Belgium. To date, 87% of households have outdoor coverage and 68% have indoor coverage. A study shows that network performance has improved, offering higher download and upload speeds. This document is not available in your language. However, you can consult it in the following language: (FR, NL).

What do we need to move forward with 5G in Belgium?

5G in Belgium: what do we need now to move forward?

The EU aims to have all European households covered by a Gigabit network by 2030, with all populated areas having access to 5G. In Belgium, the 4% coverage in 2021 rose sharply in 2022 to 30%, largely due to a late finalisation of the 5G auction (in 2022).

Which network has the best 5G outdoor coverage in Belgium?

As such, Telenet/BASE has the best 5G outdoor coverage in Belgium, followed by Proximus with 92% and Orange with 83%. 5G is the network of the future. Ready for more users, more devices. And that's essential because we use the internet more and more every day. Lagging video and stuttering calls are now behind us.

How fast is 5G in Belgium?

5G in Belgium uses higher frequencies (30-300 GHz) than 4G, offering

theoretical speeds of up to 20 Gbit/s compared with 1 Gbit/s for 4G+. This technology also has reduced latency (1 ms compared with 10 ms for 4G) and a much greater capacity for connecting devices. What are the actual 5G speeds offered by Belgian operators?

.

Which B2C network has the best 5G coverage in Belgium?

In terms of B2C territorial coverage, Telenet has the greatest 5G outdoor coverage with 85% of the Belgian territory, followed by Proximus with 75% and Orange Belgium with 63%. Telenet has the broadest B2C 5G indoor coverage with 57% of the territory, followed by Proximus with 43% and Orange with 40%.
