

# **Kazakhstan 5G communication base station inverter grid connection construction project planning**

## Overview

---

Who will develop 5G networks in Kazakhstan?

The winners of the auction for radio frequencies, the consortium "Mobile Telecom Service" and "Kcell", will develop 5G networks in Kazakhstan. The main shareholder of the winning companies is the national operator Kazakhtelecom.

How many 5G base stations will be installed in Astana?

According to the terms of the auction, the consortium is obliged to install 391 5G base stations in Astana, Almaty and Shymkent during the first year. And in the next four years — 784 base stations per year in regional centres and cities of republican significance.

How many 5G base stations will be installed in 2025?

Fifth-generation communication will appear in cities of republican significance. It is planned to deploy networks in almost all regional centres of the country in the period up to 2025. According to the terms of the auction, the consortium is obliged to install 391 5G base stations in Astana, Almaty and Shymkent during the first year.

Will Kazakh Mobile operators expand 5G coverage in 2025?

ASTANA – Kazakh mobile operators will expand 5G coverage in Astana, Almaty, Shymkent, and regional centers to complete the introduction of 5G mobile communications by the end of 2025, Minister of Digital Development, Innovations and Aerospace Industry Zhaslan Madiyev said at a June 18 government meeting chaired by Prime Minister Olzhas Bektenov.

Will 5G reduce digital inequality in Kazakhstan?

Based on the briefing, in Kazakhstan, the developers of the 5G implementation concept focused on reducing the digital inequality between the city and the countryside and expanding the product line of mobile

operators.

What did the Kazakh Telecom chair say about the project?

The Kazakhtelecom Chair also informed about the progress of constructing the Trans-Caspian fiber-optic communication line along the Caspian Sea bed between Kazakhstan and Azerbaijan. This project will increase international traffic transit through Kazakhstan, turning the country into the most important regional telecommunications hub.
