

Kiribati Power Generation Container House

Overview

What is Kiribati integrated energy roadmap?

The resulting Kiribati Integrated Energy Roadmap (KIER) highlights key challenges and presents solutions to make Kiribati's entire energy sector cleaner and more cost effective. As a small, remote island state, Kiribati is highly dependent on imported energy supply. Electricity is one of the government's largest expenditures.

How is Kiribati developing?

Another significant area for development is Kiribati's energy infrastructure. With a high reliance on diesel fuel for electricity, the country is looking to shift toward renewable energy sources as part of its broader efforts to combat climate change and ensure energy security.

Does Kiribati need electricity?

As a small, remote island state, Kiribati is highly dependent on imported energy supply. Electricity is one of the government's largest expenditures. Yet the current fossil fuel-based power system is inadequate to meet future demand.

Does Kiribati need a new transportation system?

With the country heavily reliant on fishing and agriculture, the Kiribati government has prioritised projects aimed at upgrading its infrastructure and energy systems to support sustainable economic development. One of the most urgent needs in Kiribati is the modernisation of its transportation infrastructure.

What can Australian construction companies do for Kiribati?

For instance, the Betio Port, located in South Tarawa, is undergoing significant upgrades aimed at enhancing the nation's trade connectivity. This project offers Australian construction companies the opportunity to provide expertise

and materials, particularly as Kiribati seeks partners for port modernisation.

What are Kiribati's major needs?

One of the most urgent needs in Kiribati is the modernisation of its transportation infrastructure. The nation's ports are critical for both domestic and international trade, and the government has announced plans to upgrade key port facilities to improve efficiency and increase capacity.
