

Kosovo Energy Storage Inverter

Overview

Can battery energy storage systems improve Kosovo's power system?

In conclusion, battery energy storage systems can provide significant benefits to Kosovo's power system.

Will Kosovo become a leader in the energy sector?

By implementing the largest BESS installation in the region, Kosovo will become a leader in the field, surpassing other countries in the area and beyond. The project, co-funded by the Government of Kosovo and MCC, aims to build a 340 MWh BESS installation by 2027. The project is expected to bring significant benefits to the energy sector in Kosovo.

How much money will Kott invest in a battery energy storage system?

The agreement involves an investment of approximately 236 million Dollars, with a major component being the installation of a Battery Energy Storage System (BESS) with a capacity of 340 MWh. As part of the BESS, KOSTT will own a portion of 90 MWh to provide its own ancillary services, specifically secondary reserves.

What role will Bess play in achieving Kosovo's Energy ambitions?

As Kosovo transitions towards a more sustainable energy future, BESS will undoubtedly play a vital role in achieving its energy ambitions.
