

# **Kosovo s latest photovoltaic energy storage policy**

## Overview

---

Is Kosovo planning a solar auction?

Kosovo is planning a series of auctions for renewable energy and battery energy storage systems. Minister of Economy Artane Rizvanolli has revealed plans for further procurement exercises for 950 MW of renewables, totaling €1.2 billion, after announcing the shortlisted bidders in the nation's first solar auction.

How much solar power will Kosovo have in 2022?

It is looking to add at least 1.2 MW of utility-scale wind and solar projects, alongside 100 MW of rooftop PV capacity. According to the International Renewable Energy Agency (IRENA), Kosovo had 10 MW of installed PV capacity at the end of 2022.

Does Kosovo have solar power?

Kosovo has the potential of capturing solar energy directly and converting it to electricity. The region of highest solar potential based on global horizontal irradiation is the southwestern part of Kosovo, centred around the city of Gjakova. Solar power is already used on the roofs of some buildings.

What is the energy strategy for Kosovo?

The Kosovo energy strategy includes increasing RES capacity to 35% of electricity consumption by 2031. Aiming for 600 MW wind, 600 MW solar PV, 20 MW biomass & at least 100 MW of prosumer capacity, to reach a total installed RES capacity of 1600 MW by 2031. Lignite exploitation in Kosovo started in 1922.

Does Kosovo have a battery storage plan?

According to its energy strategy, Kosovo also plans to hold two auctions for battery storage projects with a cumulative capacity of 170 MW. The minister expects that 45 MW/90 MWh and 125 MW/250 MWh battery storage

procurement exercises will be launched this year in cooperation with US-based Millennium Challenge Corp. (MCC).
