

Large communication base station

Overview

Base station (or base radio station, BS) is – according to the 's (ITU) (RR) – a " in the ." A base station is called in , in (), and in . The term is used in the context of ,

Large communication base station

Base stations

Over large distances, the signals must be relayed by a communication network comprising base stations and often supported by a wired network. The power of a base station varies (typically ...
