

Large outdoor power supply vehicle

Overview

Can a portable power station be used as an uninterruptible power supply?

Yes, a portable power station can be used as an uninterruptible power supply. Many portable power stations come with UPS features, like automatic switchover when power loss is detected.

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Oupes. Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

What is the best portable power station for camping?

EcoFlow Delta Mini (882Wh) (Update: Out of stock): When we tested it, this model hit a sweet spot of basic functionality, capacity and price, earning it a spot on our list as the best portable power station for camping. It also supported charging with solar panels. Unfortunately, it's no longer available for sale.

What is the most expensive portable power station?

The one downside is the price tag, as this unit also comes through as the most expensive portable power station with a list price of \$4,250. Milwaukee M18 Carry-On Power Supply: It isn't a great portable power station. You're probably considering buying it because you're already on the platform. If that's the case, I say go for it.

What are the performance metrics for portable power stations?

Currently, we look at two main performance metrics for portable power stations: charge time and discharge capacity. Every company that sells portable power stations provides the expected number of watt-hours its products are supposed to last. That can vary from as low as 240 watt hours to as many as 2,000 watt hours for a larger power station.
