

Latest high-efficiency photovoltaic inverter

Overview

At Intersolar North America 2025, Hoymiles unveiled the new MiS Series of microinverter — its lightest, most efficient microinverter yet. Hoymiles' fourth-generation MiS microinverter will be available later this year and is rated at 97.5% efficiency. What is the best solar inverter?

Since solar inverters are so critical, it's important to get the right one. That's why we looked at more than 20 different inverter models to come up with the 9 best solar inverters. It was hard to choose, but we think the AIMS Power 6000W Pure Sine Inverter Charger is the overall best solar inverter on the market today.

Which solar inverter should I buy in 2025?

Every solar system needs some kind of inverter to convert sunlight into usable electricity. CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025.

How efficient is a solar inverter?

A solar inverter's efficiency describes how much power is lost during the conversion from DC to AC power. An inverter will approach its maximum rated efficiency when you are drawing close to its maximum rated output. Modern solar inverters are all very efficient, but there's still a lot of variation between specific models.

What is the most expensive solar inverter?

EnergySage data from the second half of 2024 shows that solar panel systems with this SolarEdge inverter cost \$2.90 per watt (that includes the inverter and solar panels), making the Home Hub the most expensive inverter on our list.

2. Best voltage performance: Tigo EI Inverter TSI-7.6.

What are the best inverters for off-grid solar systems?

This budget power inverter from WZRELB is one of the best inverters for off-grid solar systems. It's cheap, compact, and lightweight. Plus, it's designed to take a 12-volt input voltage – the voltage that installations with just one or two small solar panels produces.

Which solar inverter is best for a 1500 volt solar project?

CPS's new 250kW 600V string inverter is quickly becoming a top choice for 1500Vdc solar project designs. With features like integrated PID mitigation and DC Enhanced wire boxes (available in centralized or distributed options), engineers are finding it ideal for their projects.

Latest high-efficiency photovoltaic inverter

Voltage ranges: 91.2-947.2V
>6000 cycles (100% DOD)
Rated battery capacity:
216KWH (customizable)
EMS communication:
4G/CAN/RS485

[Solar PV Inverters Buyer's Guide 2024](#)

We asked every inverter manufacturer what's new in the lineup this year, and what their domestic manufacturing plans are. Those answers are below, followed by a full product ...
