

# Latvia Wind Solar and Energy Storage Project

## Overview

---

Latvia's Energy Strategy 2050 outlines major changes in renewable energy production and storage, with significant investments planned in wind, solar, biomass, and biogas, as well as in energy storage technologies like batteries and subsurface systems to ensure supply stability [3].

## Latvia Wind Solar and Energy Storage Project

---

### [How Renewable Energy is Shaping the Future of Latvia](#)

The Latvian side of the project alone, projected to have up to 1,000 MW capacity [3], is designed to meet the rising regional demand for renewable energy. The project's ...

### [Product Information](#)

### [Latvia's largest battery energy storage system unveiled](#)

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 ...

### [Product Information](#)

### **Hoymiles Empowers Latvia's Largest Energy Storage Project at ...**

The launch of the Targale energy storage system marks a significant leap forward for Latvia's clean energy transition. It enhances the stability of the national grid, strengthens ...

### [Product Information](#)

### [Latvia Practical Solar Energy Project](#)

Island Solar Microgrid System Designed for remote islands, this advanced solar microgrid harnesses solar and wind energy with intelligent power management to deliver reliable, clean ...

### [Product Information](#)

### Hoymiles Powers Latvia's Largest Energy Storage Project at Targale

Hoymiles, as a key technology supplier, played a pivotal role in the project. Managed by Utilitas, Latvia's largest wind energy producer, this project combines wind energy ...

### [Latvia's largest battery energy storage system unveiled](#)

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total ...

[Product Information](#)

### Hoymiles Powers Latvia's Largest Energy Storage Project At ...

Hoymiles, as a key technology supplier, played a pivotal role in the project. Managed by Utilitas, Latvia's largest wind energy producer, this project combines wind energy ...

[Product Information](#)

## From potential to progress: Latvia's renewable energy landscape

By focusing on local renewable energy, such as wind and solar, and integrating battery energy storage systems at a single connection point with direct lines to consumers, the ...

[Product Information](#)

## [Sunly Launches 225 MW Solar Projects in Latvia](#)

Estonia-based renewable energy developer Sunly has commenced preparatory works for three solar projects in Latvia, collectively boasting a capacity of 225 MW. These projects will function ...

[Product Information](#)

## Hoymiles Powers Latvia's Largest Energy Storage Project at Targale

Managed by Utilitas, Latvia's largest wind energy producer, this project combines wind energy generation with advanced storage capabilities, setting a new standard for ...

[Product Information](#)

## Latvia's path to energy transition: Expanding renewable energy ...

Latvia's Energy Strategy 2050 outlines major changes in renewable energy production and storage, with significant investments planned in wind, solar, biomass, and ...

[Product Information](#)

## Green Energy in Latvia: The Rise of Solar and Wind Power

The government, local communities, and private investors are aligning around a shared goal: to create an energy-independent Latvia powered by clean sources. While ...

### Product Information

### Latvia: first BESS opens ahead of Russia grid uncoupling

In Latvia, developer Utilitas Wind announced the official opening of a 10MW/20MWh battery energy storage system (BESS) last week (1 November) in Targale, a village in Latvia's ...

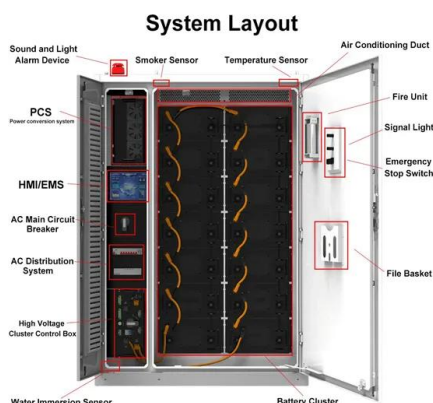

### Product Information

## **Niam Infrastructure and Evecon partner up for 110 MW of solar & storage**

PRESS RELEASE 11 SEPTEMBER 2024 Niam Infrastructure and Evecon have formed a partnership for the construction of up to 84 MWp of solar power and 26 MW of ...

### Product Information

## **Latvia Energy Grants 2025: Solar, Wind, and Efficiency Subsidies ...**

Discover Latvia's 2025 energy grants and subsidies for solar panels, wind turbines, heat pumps, and energy efficiency improvements. Freen helps homeowners and ...
