## Overview

---

What is pknergy liquid cooled energy storage system?

The PKENERGY liquid-cooled energy storage system solution can be equipped with a self-developed battery pack balancer, increasing the system's usable capacity by 10%. This further unlocks the potential of the liquid-cooled BESS, maximizing its performance and efficiency.

What is a Megatron 1500V Battery Cabinet?

MEGATRON 1500V 344kWh liquid-cooled and 340kWh air cooled energy storage battery cabinets are an integrated high energy density, long lasting, battery energy storage system.

What is a liquid cooling system?

The advanced liquid cooling system ensures a cell temperature difference of less than 3%, effectively preventing system overheating and enhancing energy efficiency. This optimized cooling system allows for stable performance and improved longevity of the battery energy storage system.

What is included in a battery cabinet?

Each battery cabinet includes an IP56 battery rack system, battery management system (BMS), fire suppression system (FSS), HVAC thermal management system and auxiliary distribution system. Outdoor liquid cooled and air cooled cabinets can be paired together utilizing a high voltage/current battery combiner box.

What is pknergy Bess (battery energy storage system)?

PKENERGY has launched a new all-in-one liquid-cooled BESS (Battery Energy Storage System) series. The upgraded solution features globally leading long-life CATL LFP cells, offering a lifespan of up to 8000 cycles at 70% DOD (Depth of Discharge).

Are containerized battery cooling systems a good investment?

Compared to traditional containerized battery cooling systems, energy consumption is reduced by 30%, and the lifespan is extended by 2 years, making it a more promising solution for return on investment.
