

Lithium batteries for solar energy storage in Burkina Faso

Overview

Burkina Faso is leading the way in renewable energy in West Africa. However, this wasn't always the case – in fact, the country is playing catch up in terms of its commitment to clean energy. The first solar plant – and also the largest in West Africa – is located in Zagtoui in Burkina Faso. This solar build is the.

Burkina Faso has an abundance of power equipment suppliers and distributors for individual and commercial use. It also has access to many other global suppliers.

Despite being a landlocked country, it is possible to supply solar power equipment via major seaports near the African country. The major ports include.

The Government of Burkina Faso has signed a Public-Private Partnership (PPP) agreement with a local developer and a Dutch clean energy investment firm to develop a major solar and battery storage system.

Lithium batteries for solar energy storage in Burkina Faso

[Burkina Faso tenders first solar project with battery](#)

The next phase for renewables in Africa should be to transition from piloting solar with battery storage to mainstreaming its deployment. These pilot projects offer valuable ...
