

Lithuania lithium energy storage power supply direct sales manufacturer

Overview

Chinese lithium-ion (Li-ion) battery OEM and BESS solutions manufacturer CATL will supply the battery storage equipment. DS1's partner BL Energy has selected power conversion system (PCS) equipment from inverter manufacturer Power Electronics for the project. Which power plant provides energy storage in Lithuania?

Kruonis Pumped Storage Plant provides energy storage, averaging electrical demand throughout the day. The pumped storage plant has a capacity of 900 MW (4 units, 225 MW each). Kaunas Hydroelectric Power Plant has 100 MW of capacity and supplies about 3% of the electrical demand in Lithuania.

What is a lithium battery?

Lithium batteries designed as VRLA battery replacements, primarily serving reserve and hybrid power applications. These batteries adhere to standard lead-acid battery dimensions for seamless integration. Customized lithium battery solutions tailored to diverse applications such as portable equipment, emergency power supply, and mobile devices.

What is a customized lithium battery?

Customized lithium battery solutions tailored to diverse applications such as portable equipment, emergency power supply, and mobile devices. Individualized design and parameters, ranging from 12V to 1500V, with capacity selection to meet your specific needs.
