

Malta Photovoltaic Energy Storage Project

Overview

A project to build two massive battery storage systems that can capture electricity generated from renewable energy sources is now open to bidders. The battery energy storage systems (BESS) will be located in Marsa and Delimara, on Enemalta grounds in both localities.

Malta Photovoltaic Energy Storage Project

Battery Energy Storage Systems

This project is in alignment with Malta's energy and climate strategies, as it emphasises the integration of energy emanating from renewable sources and the mitigation of energy ...
