

Market share of solar panels

Overview

Monocrystalline solar panels segment is projected to account for 41.6% of the market share in 2025. The residential segment is expected to hold a 34.6% share of the global solar panels market in 2025. The On-Grid segment is expected to hold 54.6% of the global solar panels market in 2025. How big is solar panels market?

Solar Panels Market Grow at a ~12.63% CAGR, to reach USD 282.4 Billion by growing solar systems, transparent panels, initiatives & policies for reduction in carbon emission till 2030. Solar Panel Industry Analysis by Size, Share, Trends, Companies, Regions and Forecast 2024 - 2030.

What is the market share of solar panels in North America?

North America is projected to contribute significantly to the solar panels market, with a 13.5% share. Market Overview: The solar panels market is experiencing significant growth due to increasing environmental concerns, government incentives, and declining costs of solar technology.

What is the market share of solar PV panels in 2023?

Based on application, the industrial segment accounted for a dominant share of over 40.0% in solar PV panels sector in 2023. Companies in the commercial and industrial sectors are among the major consumers of solar photovoltaic panels owing to the large-scale demand for green energy.

What is the market share of solar energy in 2024?

By technology, solar photovoltaic commanded 99.6% of the solar energy market share in 2024; concentrated solar power lags with 0.4% but still offers niche benefits such as long-duration thermal storage.

What is the global solar PV panels market size?

The global solar PV panels market size was estimated at USD 170.25 billion in 2023 and is projected to reach USD 287.13 billion by 2030, growing at a

compound annual growth rate (CAGR) of 7.7% from 2024 to 2030.

What is the market share of solar panels in 2025?

Key Takeaways of the Solar Panels Market: Monocrystalline solar panels segment is projected to account for 41.6% of the market share in 2025. The residential segment is expected to hold a 34.6% share of the global solar panels market in 2025. The On-Grid segment is expected to hold 54.6% of the global solar panels market in 2025.
