

Multi-axis outdoor power supply specifications

Overview

What is axis 90 W midspan AC/DC?

AXIS 90 W Midspan AC/DC is perfect for installations where mains power is not an option. With a power input of either 24 V AC or 20-26.4 V DC, it can deliver up to IEEE 802.3bt (90 W) to your network device. AXIS 90 W Midspan AC/DC is plug-and-play and compatible with all Axis PoE devices which require up to 90 W power.

Does Axis tq1808-ve have a DIN rail mount?

A DIN rail mount is included alongside AXIS TQ1808-VE surveillance cabinet brackets. Configure your switch through the AXIS Device Manager software. In addition to being designed to withstand shock and vibrations, this switch can handle temperatures between -40 to 140°F. See any errors on this page?

.

What if I need technical assistance with Axis?

Should you require any technical assistance, please contact your Axis reseller. If your questions cannot be answered immediately, your reseller will forward your queries through the appropriate channels to ensure a rapid response. If you are connected to the Internet, you can:
