

Nanya battery cabinet manufacturer direct sales system

Overview

Who is Nanya Technology?

From the beginning of 2002 Nanya has started the related DRAM business in Japan. Nanya Japan has raised its reputation with successful DDR technology. In order to provide closer support to customers and expand business in Japan & Korea, Nanya Technology has established Japan office in Tokyo in September 2002.

Does Nanya have a DRAM product portfolio?

Nanya has a complete DRAM product portfolio and continues to make inroads in advanced products and services. Our focus on innovation has resulted in the successful development of 10nm-class process technology, which will enable the next three generations of DRAM, including the DDR5 and LPDDR5 products.

Where is Nanya Technology Corporation located?

Located in Nanya Technology Corporation headquarter, mainly to provide DRAM products of advanced process and technical services to customers in Taiwan and Southeast Asia. Department Manager No. 98, Nanlin Rd., Taishan Dist, New Taipei City 243-52, Taiwan (R.O.C.) Nanya Technology Corporation USA is Nanya's first overseas subsidiary.

What is Nanya DRAM?

Nanya DRAM enables employees to work smart and maximize efficiency in the office place - both at the desk and behind the scenes. Create a smart connected home covering a wide variety of consumer electronics with standard and low power DRAM densities ranging from 512Mb to 8Gb.

Is Nanya a sustainable company?

In 2023, Nanya was selected into the DJSI World Index for the third time and the Emerging Markets Index for the fifth time. Our scores in the S&P Global

Corporate Sustainability Assessment (CSA) ranked first among memory companies, and was included in the 2023 S&P Global Sustainability Yearbook.

How much will Nanya invest in a new Fab?

In addition to current facilities upgrades, Nanya plans to invest approximately NT\$ 300 billion for a new fab with a two-story clean room. The construction has started in 2022, and once completed, future generations of our 10nm-class technologies and products will be implemented and produced.
