

# Nepal Solar Inverter Company

## Overview

---

Is there a solar market in Nepal?

Even though Nepal's solar market is at its initial stages of development, it boasts of 80 solar equipment distribution companies. Nepal's supply chain's leading solar equipment categories include solar panels, inverters, batteries, and solar water heaters. Nevertheless, equipment sales in Nepal are currently limited to individual households.

Can you buy solar equipment in Nepal?

Nevertheless, equipment sales in Nepal are currently limited to individual households. Still, you don't need to worry if you need equipment for a large-scale solar project. Nepal has several ports that facilitate direct shipping of solar equipment from established solar markets such as China and the USA.

What is a solar power inverter?

Solar power inverters have a crucial role to play in a solar system as they convert the electricity of solar panels to make them usable for running various appliances, lighting, and other electronics at homes or businesses.

Can Nepal harness solar power?

The country relies heavily on hydroelectric power, which, frankly, is not sufficient to serve the electricity needs. Consequently, the government is looking to exploit the nation's solar potential to remedy the situation. Nepal can potentially harness 2,920 Gigawatts per annum by utilizing 0.01% of its total land area.

Can solar power SOLVE Nepal's power shortages?

Nepal, a mountainous landlocked nation between China and India, has struggled with power shortages for several years. The country relies heavily on hydroelectric power, which, frankly, is not sufficient to serve the electricity needs. Consequently, the government is looking to exploit the nation's solar

potential to remedy the situation.

What are the different types of solar inverters?

After the energy conversion, solar electricity can power all the appliances and electronics. If the solar panels produce more electricity than required, it goes back into the grid. There are mainly three types of solar inverters — string inverters, micro-inverters, and power optimizers. All these inverters have a different system.
