

New energy storage projects in the Philippines

Overview

The new initiatives build on a memorandum of understanding signed by KEPCO and the One Meralco Group in February 2025. The agreement covered potential cooperation in nuclear energy, renewable energy, smart grids, microgrids, electric vehicles and other advanced energy technologies.

New energy storage projects in the Philippines

DOE: Battery Energy Storage Systems are gaining momentum to ...

The Department of Energy (DOE) said that the Philippines is exploring innovative solutions to optimize renewable energy integration and reduce costs, with Battery Energy ...

Product Information

Philippines backs 17 new power projects, focuses on renewables and storage

The Department of Energy (DOE) of the Philippines endorsed 17 power generation projects to the National Grid Corporation of the Philippines (NGCP) in June 2025, highlighting ...

Product Information

MGen, Kepco explore investments in wind, storage systems

1 day ago· MANILA, Philippines -- The power generation arm of Pangilinan-led Manila Electric Co. (Meralco) and Korea Electric Power Corp. (Kepco) target to extend their investments ...

Product Information

Meralco PowerGen, KEPCO eye wind, energy storage projects

22 hours ago. These projects reflect a shared goal of delivering sustainable and reliable energy solutions for the Philippines and strengthening their long-standing partnership. MGEN, the ...

Philippines Breaks Ground on World's Largest Solar and Battery Storage

The Philippines marked a major milestone in renewable energy with the groundbreaking of a 3,500 MW solar plant and a 4,500 MWh Battery Energy Storage System ...

Product Information

11 Energy Projects, Including Large-Scale Renewables. ...

These projects, which include hydropower, wind, coal, and battery energy storage systems (BESS), are set to bolster the country's energy capacity and strengthen grid reliability.

Actis invests in world's largest integrated renewables ...

The transaction represents the largest foreign direct investment for a greenfield infrastructure project in the Philippines and will see Actis bring its ...

The Philippines to Add 9.4 GW of Wind, Solar, and Energy Storage Projects

4 days ago. On September 2, 2025, the fourth Green Energy Auction (GEA-4) organized by the Philippines' Department of Energy (DOE) concluded successfully, securing commitments for ...

Product Information

The Philippines to Add 9.4 GW of Wind, Solar, and Energy ...

4 days ago· On September 2, 2025, the fourth Green Energy Auction (GEA-4) organized by the Philippines' Department of Energy (DOE) concluded successfully, securing commitments for ...

Product Information

The transaction represents the largest foreign direct investment for a greenfield infrastructure project in the Philippines and will see Actis bring its rich experience in ...

Product Information

Integrating battery energy storage system in the Philippines , ACEN

Strategic advantages of our energy storage systems ACEN is redefining energy transition in the Philippines through the strategic implementation of advanced energy storage systems co ...

Energy storage redefining clean power shift

ACEN aims to integrate renewable energy better and further enhance grid reliability through its pioneering battery storage projects in the Philippines and overseas markets.

Product Information

Massive solar project progresses ahead of schedule in Philippines

More than half of the first phase of the 3.5 GW solar and 4.5 GWh battery storage MTerra Solar project in the Philippines is now complete, eight months after its groundbreaking. ...

Product Information

Philippines backs 17 new power projects, focuses on renewables ...

The Department of Energy (DOE) of the Philippines endorsed 17 power generation projects to the National Grid Corporation of the Philippines (NGCP) in June 2025, highlighting ...

Product Information

Major Solar and Storage Project in the Philippines Progressing ...

A large-scale solar and battery energy storage project in the Philippines is moving forward faster than expected, with 54% of the first phase completed just eight months after ...

MGEN, KEPCO cement partnership in Batangas solar farm - Power Philippines

1 day ago· MGEN and KEPCO said they intend to explore additional projects in wind and energy storage systems to further diversify the country's energy portfolio. What's your view--will this ...

Product Information

Scatec JV reaches financial close for 56 MW BESS in ...

Oslo, 17 February 2025: Scatec ASA's joint venture with Aboitiz Power in the Philippines has reached financial close and prepares for construction start of ...

Product Information

Terra Solar aims ERC approval for Php 200B solar and battery project

Terra Solar Philippines, Inc. (TSPI) has filed a request with the Energy Regulatory Commission (ERC) to build a transmission facility for its Php 200-billion solar power and ...

Product Information

Philippine DOE names two pumped storage 'projects of national

Two of Prime Infra's pumped storage projects, planned for development in the Philippines, received Certificates of Energy Project of National Significance.

Sungrow inks 1.5GWh BESS supply agreement in the Philippines

Sungrow will supply its PowerTitan2.0 energy storage system to CREC as part of the deal. Image: Sungrow. Chinese solar PV inverter and energy storage provider Sungrow ...

Product Information

MTerra Solar Project Breaks Ground: A Monumental Milestone in ...

We stand together at the site of what will become the largest integrated solar and battery storage facility in the world - the Terra Solar Project. This landmark project will put our ...

Product Information

Aklan Pumped-Storage Hydro Power Plant Project: Developed by Strategic Power Development Corp. (SPDC), this proposed 300 MW project aims to enhance the country's ...
