

# **Oceania containerized energy storage equipment**

## Overview

---

What is containerized energy storage?

ABB's containerized energy storage solution is a complete, self-contained battery solution for a large-scale marine energy storage. The batteries and all control, interface, and auxiliary equipment are delivered in a single shipping container for simple installation on board any vessel. How does containerized energy storage work?

.

How many employees does Oceania container services have?

Oceania Container Services, along with other companies, have an estimated turnover of \$8613.88 billion and employ a number of employees estimated at 13.85 million.

What is containerized ESS?

ABB has responded to rapidly rising demand for low and zero emissions from ships by developing Containerized ESS – a complete, plug-in solution to install sustainable marine energy storage at scale, housed in a 20ft high-cube ISO container.
