

Oman Addis Ababa Communications 5G base station

Overview

Does Addis Ababa have a 5G network?

Our company has commercialized the 5G network in Addis Ababa and is ready to offer unlimited 5G data, 5G To The Home, and a variety of 5G mobile packages to our esteemed customers.

Does Ethio telecom offer 5G service?

Ethio telecom offers 5G service to customers with 5G-supporting mobile phones or devices and who are in 5G network covered areas. To enjoy the service, they need to buy a 5G package. Only 5G-supporting mobile devices can access the 5G service.

Does Oman have a 5G network?

In Oman, the TRA has implemented measures to promote infrastructure sharing among mobile operators, which can enhance the efficiency and cost-effectiveness of 5G network deployments.

How many 5G base stations will Omantel have?

Omantel launched its 5G network in December 2019, utilizing the 3.4 – 3.6 GHz frequency band. 1 The Telecommunications Regulatory Authority (TRA) had set a target for operators to deploy 4,400 5G base stations over a five-year period starting in October 2019.

Is 5G spectrum approved in Ethiopia?

The Ethiopian Communication Authority has furnished us with temporary 5G Spectrum approval to implement the pre-commercial trial of the service while our Strategic Partner Huawei technologies has deployed the 5G network.

Who can access EthioTelecom's 5G service?

EthioTelecom's 5G package is available to all prepaid, postpaid, and hybrid 5G

SIM subscribers. To access 5G speeds, consumers must have 5G-capable devices and be in 5G network coverage. They can update their 4G SIM to 5G or subscribe to a new 5G SIM.
