

Outdoor energy storage power distribution box

Overview

Why do you need an outdoor battery enclosure box?

Outdoor battery enclosures keep your batteries safe from weather and safe from theft. Outdoor battery enclosure boxes also feature locking mechanisms that protect unauthorized people against possible electrical dangers if they happen to be tampering with your equipment.

Are Lex power distribution boxes safe?

Lex Products offers a full range of portable power distribution boxes and units, specifically engineered for indoor and outdoor use for the entertainment, industrial and military industries. Our power distribution boxes range from 20-800 Amps and are well known for being durable, long lasting and safe.

How many amps does a power distribution box have?

Our power distribution boxes range from 20-800 Amps and are well known for being durable, long lasting and safe. Load Master™ Series portable power distribution boxes are the first in the industry to feature outputs with adjustable current ratings to match specific application loads.

What is a NEMA 1 indoor distribution box?

The indoor distro boxes have a NEMA 1 Indoor environmental rating, like the versatile 100 amp 3 phase PowerHOUSE™ Pagoda portable distribution box. Lex Products has a portable power distribution box you need for your industry.

What is a portable power distribution rack?

This portable power distribution rack is engineered with a compact, space-saving design ideal for in-use operation, transport, and storage. Built for rugged durability and certified to cULus standards, this combo rack is an all-in-one solution for dynamic, temporary applications.

What are load master TM series portable power distribution boxes?

Load Master [™] Series portable power distribution boxes are the first in the industry to feature outputs with adjustable current ratings to match specific application loads. These temporary power distribution boxes feature 1, 3 or 4 adjustable circuit breakers, with a range of amperage and voltage ratings.
