

# **Outdoor power and charging safety in Estonia**

## Overview

---

Are the power outlets and plugs in Estonia the same?

However, the power outlets and plugs in Estonia are not the same as those found in many other countries. It is important to bring a power adapter that is compatible with the Estonian power system to avoid damaging your electronic devices.

Do I need an adapter to use a charger in Estonia?

Chargers for iPhones, Android phones and other smartphones or cell phones are usually dual voltage, so you can use them all over the world. However, it is possible you'll need an adapter to plug the charger into a Estonia outlet. Estonia uses electrical outlets and power plugs of types C & F ( see images) .

What voltage does Estonia use?

Also, the voltage in Estonia is the same as in Europe. What Outlet does Estonia Use?

Type C plug sockets are used in Europe, Africa and Asia. They have two round pins and no grounding pin. These plugs are typically used with devices that have a voltage of 220-240V. This outlet is rated for 2.5 amps.

Can I connect my laptop charger to an electrical outlet in Estonia?

Yes, you can connect your laptop charger to an electrical outlet in Estonia as long as the outlet is compatible with the charger's voltage and plug type. In Estonia, the standard voltage is 230V and the standard frequency is 50Hz.

Are type C plug sockets allowed in Estonia?

Typically, type C plug sockets are not allowed to be installed in Estonia: these outlets are not earthed and are therefore considered dangerous. Only type F power points are permitted because they are grounded and therefore significantly safer. The only (and rare) exception to this rule is that an old type

C outlet should be replaced by a new one.

Where can I buy a power adapter for Estonia?

There are many different types of adapters available on Amazon that can be used in Estonia. You can purchase a universal adapter that will fit most outlets in the world, or you can purchase a specific adapter for Estonia. → Find travel adapters on Amazon. What Voltage and Frequency Are Used in Estonia?
