

Outdoor power supply self-charging and self-operation

Applications

Electric motorcycle

Electric Forklift

Electric Boat

Golf Cart

RV

Audio Equipment

Solar Street Light

Household Energy Storage

Energy Storage System

Overview

What is a Schneider Electric Offgrid portable power station?

Schneider Electric's OffGrid Portable Power Station is designed for outdoor enthusiasts and home users to provide consistent, reliable power whenever you need it - anytime, anywhere. Need help?

Quickly and easily find the right products and accessories for your applications. Start your sales inquiry online and an expert will connect with you.

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

How long does a portable power station take to recharge?

That depends on the capacity of your portable power station, the wattage of your solar panels, and the weather. For example, a 1,000Wh power station that's receiving a consistent stream of 200 watts of power from a solar panel would take about 5 hours to recharge ($1,000/200=5$). Are portable power stations weather resistant?

.

How do portable power stations work?

Portable power stations have control panels with LED displays and buttons that turn off and on inputs and display usage and remaining power. Most portable power stations are also compatible with Bluetooth and Wi-Fi, allowing you to monitor and control them remotely from a smartphone app.
