

# **Outdoor solar energy on-site China prices**

## Overview

---

How much does a solar panel cost in China?

According to the studies done by the International Energy Agency (IEA), more than 60% of the solar panels in the world are manufactured in China. The average cost of the solar panel in China is \$2.92/W. The average price of installation ranges from \$12,410 to \$16,790. Source: China daily Chinese companies are the world's leaders in low priced solar.

Is solar power affordable in China?

Solar power is probably the most promising source of renewable energy – and China is making it affordable. While worldwide solar power capacity is still limited, the industry has grown with incredible speed in the last decade.

How much solar energy is installed in China?

China's annual solar energy installations grew to 10 MW installed in 2006, increasing China's total installed solar energy capacity to 80 MW. Annual solar energy installations continued to grow, with 20 MW of capacity installed in 2007 and 40 MW installed in 2008.

Are solar module prices on a 'consistent uptrend' in China?

Taiwanese research institute EnergyTrend has reported that solar module prices in China are on a “consistent uptrend.” Its latest report said tunnel oxide passivated contact (TOPCon) module prices “rebounded sharply” and were widely quoted between CNY 0.70 (\$0.097)/W and CNY 0.75/W, reinforcing “bullish” market sentiment.

Does China offer a subsidy for onsite solar?

In addition, the Chinese government offers a subsidy for onsite solar generation of ¥.37/kWh (about \$.06/kWh). In 2018, this subsidy decreased for the first time, and is expected to continue to decrease in the coming years.

## Is onsite solar a good option for C&Is?

Onsite solar is the primary opportunity for corporates to focus on in China. A steep drop in costs has resulted in greatly improved returns, making PPAs for onsite generation an attractive option for C&Is. In addition, the Chinese government offers a subsidy for onsite solar generation of ¥.37/kWh (about \$.06/kWh).
