

Palau Mobile Energy Storage Battery Cost

Overview

With a capacity of 15.3 MWp solar PV and 12.9 MWh BESS, the project is claimed as the largest of its kind in the Western Pacific region, also making it one of the most significant foreign direct investments in the island nation. The total cost of the project is said to be \$29 million. When did Palau launch its first solar and battery energy storage system?

Palau on June 3 launched its first solar and battery energy storage system (BESS) project on Friday. The project was made possible by Renewable company Alternergy Holdings Corp. and its subsidiary Solar Pacific Energy Corporation.

How much does a solar PV-battery energy storage system cost?

The total project cost US\$29m. Alterenergy Holdings Corp. (ALTER) and its subsidiary Solar Pacific Energy Corporation launched the first solar PV-battery energy storage system (BESS) project in Palau. The solar PV-BESS project has a capacity of 15.3MWp solar PV, and 12.9MWh BESS.

What is the Palau solar battery project?

The Palau Solar Battery Project will be the largest such project in the Western Pacific. It will lessen Palau's imported fuel dependency, a major step towards its ambitious goal of 100%.

How much does Palau solar project cost?

In a press release from the company, it said the Palau solar project boasts a capacity of 15.3 MWp solar PV and 12.9 MWh BESS, making it one of the most significant foreign direct investments in the country. The project cost USD29 million, the venture marks a remarkable milestone for Alternergy.
