

Peru Independent Hybrid Energy Storage Project

Overview

The BESS project will have an installed capacity of around 30 MWh, which will be installed at ENGIE Energía Perú's ChilcaUno Thermoelectric Power Plant, and will allow the plant to operate at full capacity, which translates into more efficient energy for the country, as well as contributing to improve the stability of the national power grid.

Peru Independent Hybrid Energy Storage Project

PR NHOA Energy

The system is now operational with its over 31MWh of storage capacity, enhancing Peruvian grid stability. With this project NHOA Energy consolidates its proven experience in thermal power ...
