

Photovoltaic panel special equipment manufacturer

Overview

What equipment is required to produce solar/PV modules?

Our automated Solar/PV modules production line includes a complete set of equipment, such as solar cells laser cutting, string soldering, welding, glass loading, layup, laminating, framing, J-Box soldering, curing, final testing, labeling, sorting, and packaging of the produced modules.

What is a Mitsubishi Electric photovoltaic system?

Mitsubishi Electric photovoltaic systems are used throughout the world to bring clean, reliable energy to residences, business, power-generation plants, schools, factories and areas without access to electricity, as well as other applications such highway and stadium lighting.

Do you offer a complete set of PV machines?

We offer a complete set of PV machines covering all solar manufacturing processes. We offer complete solar panel production lines for global customers to manufacture photovoltaic modules based on their specific requirements.
