

# **Portugal Energy Storage New Energy Storage Battery**

## Overview

---

Government outlines €400 million plan to strengthen grid resilience after April blackout. Portugal will launch a competitive tender for 750 MVA of battery energy storage before January 2026, as part of a broader €400 million package aimed at improving grid reliability and preventing future blackouts. Will a 5 mW 20 MWh battery storage system be built in Portugal?

Galp, a Portuguese energy company, has announced plans to build a 5 MW/20 MWh battery storage system in Portugal, in collaboration with Powin. The system at one of Galp's solar plants will enable it to adjust its PV production profile and meet its energy requirements. This project marks Powin's first venture in Europe.

Is powin launching a battery energy storage system in Europe?

This project marks Powin's first venture in Europe. Global energy storage supplier Powin LLC and Portuguese integrated energy company Galp have partnered to install a utility-scale battery energy storage system (BESS) in Algarve, Portugal. The 5 MW/20 MWh battery system will be built at one of Galp's solar power plants near the village of Alcoutim.

Does powin have a battery energy storage system?

A render of the solar PV plant and Powin's BESS unit. Image: Business Wire. System integrator Powin has been enlisted by oil, gas and renewable energy firm Galp to install a battery energy storage system (BESS) at a PV plant in Portugal, Powin's first in Europe.

Where are Galp & powin launching a large-scale battery energy storage system?

Galp and Powin have begun the installation of a large-scale battery energy storage system in Alcoutim, southern Portugal.

Is Europe ready for large-scale battery energy storage?

“Europe is expected to implement more than 90 GWh of large-scale battery energy storage projects by 2030, and we are well positioned to support this demand and keep up with the rapid growth of energy storage in the wider European region, Middle East and Africa,” he stated.

Is Europe ready for energy storage?

Europe is expected to deploy over 90 GWh of utility-scale battery energy storage projects by 2030, and we are well positioned to support this demand along with the wider EMEA region’s rapid energy storage growth,” said Powin CEO, Jeff Waters.
