

Qatar photovoltaic power station inverter

Overview

The solar power plant was developed in the Al-Kharsaah area on a 10km² of land, located 80km west of Doha, Qatar. The plant uses 1.8 million bifacial solar modules with trackers, which benefit from the high level of sunlight available in the area. The Al-Kharsaah solar power project applies the latest solar energy.

Total and Marubeni won the solar project through a competitive tender process. Kahramaa received five competitive bids for project development. Total, Siraj Energy and.

In January 2020, Kahramaa signed a 25-year power purchase agreement with Siraj 1 to procure electricity from the power plant. Kahramaa is.

Marubeni is strategically shifting from coal-fired power generation to the renewable energy generation business. In September 2018, the company pledged not to develop new coal-fired power.

Kahramaa hired consulting firm EY as lead and financial advisor. DLA Piper served as legal advisor while Poyry Switzerland, a consulting and engineering company, provided technical advisory services. Hitachi Energy, a technology company, provided a 220kV.
