

Rack Battery Cabinet

Overview

What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

What is a battery rack?

Arimon uninterruptible power supply (UPS) backup battery racks are available for either front access batteries or top terminal (monobloc) batteries. All battery racks are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.

What is a battery rack made of?

Made with welded heavy-gauge steel construction, our battery backup cabinets and battery racks are made to last and designed with options to give your facility a unified look. We offer multiple battery racks with different configurations, including both rack mount and cube layout units. Either option can be custom configured.

What is an EG4 battery rack?

EG4 Enclosed Battery Rack, featuring an enclosed cabinet design. The cabinet door swings open on a sturdy hinge, allowing easy access to the equipment and cables for easy installation. The door panel locks securely to help prevent damage, tampering, and/or theft. The front door is vented, allowing for air to flow freely and keep equipment cool.
