

# **Sino-European Solar Panel Photovoltaic Panel Factory**

## Overview

---

How many sinovoltaics Europe Solar factory sites are there?

The report tracks the announced factory location, size, owner, and planned capacity, as well as sites that have been closed, or where capacity is on hold. There are 125 factory sites listed in the Sinovoltaics Europe Solar Supply Chain Map for 1Q2025, which is available as a free download.

What is sinovoltaics?

Sinovoltaics provides a free comprehensive map resource that is designed to provide a clear and detailed view of the global solar supply chain.

Where is sinovoltaics' new supply chain map based?

Sinovoltaics, a Hong Kong-based technical compliance and quality assurance company, has released its latest PV module supply chain map for Europe and Turkey, plus Egypt and Kazakhstan. The report tracks the announced factory location, size, owner, and planned capacity, as well as sites that have been closed, or where capacity is on hold.

How many solar plants are there in Europe?

The latest report on the supply chain for European PV module production provides the status of 121 solar manufacturing sites, including closures and capacity on hold. It maps plants that produce PV modules, cells, wafers, ingots, polysilicon, and metallurgical-grade silicon.

How often does sinovoltaics publish a region-specific solar supply chain map?

Every four months, Sinovoltaics publishes region-specific solar supply chain maps for North America, Europe, Southeast Asia, and India, documenting the published plans of manufacturers operating in each region. It also publishes an annual transformer manufacturing map for Mainland China.

What services does sinovoltaics offer?

Sinovoltaics' services include quality assurance inspections, factory audits, Environmental, Social, and Governance (ESG) reports, and traceability audits for utility solar developers and investors.
