

Slovakia Emergency Energy Storage Power Supply

Overview

What happened to Slovakia's energy supply?

Although Slovakia is a significant producer of nuclear and hydroelectric energy, its biggest energy provider made a costly decision to sell off its excess power to energy traders early in the year. These traders are now selling the contracts back to Slovakia at market prices that are about five times higher.

What are Slovak Republic's energy policies?

Slovak Republic's recent energy policies have made significant progress. Along with its neighbours and with support from the European Union, the country has strengthened cross-border connections for electricity, natural gas and oil, improving its ene.

What is the capacity of energy storage facility?

Energy storage facility of a cumulative installed capacity of 384 MW, storage capacity allowing a net annual electricity generation of 250 GWh. The storage will consist of several smaller units (~32-64MW) located in Slovakia (central Europe).

How many customers does ZSE Energia serve?

In 2019, ZSE Energia serves more than 1 million customers and delivers annually 9 TWh of energy. Realization timeline 2019 2020 1 2021 2022 2 2023 2024 3 2025
