

Slovakia Photovoltaic Microinverter

Overview

Where can I buy a solar inverter in Slovakia?

The inverters have been tested and approved for operation in the Slovak power grid and are now available from the official distributor, Photon Energy. Solinteg, backed by renowned company TCL, focuses on cutting-edge solar inverter and battery storage technologies.

Are solinteg solar inverters available in Slovakia?

Solinteg hybrid inverters have been tested and approved for operation in the Slovak power grid and are now available from the official distributor, Photon Energy. Slovakia's solar components market welcomes the introduction of Solinteg's advanced solar inverters.

What is BIPV & how does it work in Slovakia?

From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV). We led the way with the first-ever 400kWh Battery Backup System, even before container-based battery systems became mainstream.

Where can I buy solinteg products in Slovakia?

Photon Energy, an authorized wholesaler and key partner of Solinteg in the Czech Republic and other European countries, is proud to announce the availability of Solinteg's products in Slovakia. As an established distributor, Photon Energy has a reputation for providing high-quality PV components together with great technical support.

What is a photon energy inverter?

As an established distributor, Photon Energy has a reputation for providing high-quality PV components together with great technical support. In the , you will find a range of hybrid inverters from 10 kWp up to 50 kWp, and the

inverter with an output of up to 50 kWp is the first of this size on the market.
