

Slovenia Solar Panel Industrial Base

Overview

How many solar panels did Slovenia install in 2025?

Slovenia installed 85 MW of solar in the first half of 2025, driven by growth in commercial and industrial (C&I) projects and utility-scale installations. The lowest total in four years reflects a sharp decline in residential installations, despite continued subsidies for residential hybrid systems.

Does Slovenia have a solar market?

Slovenia's solar market is experiencing significant growth, with 85 MW of new capacity installed in the first half of 2025, according to PV Magazine. This expansion is driven by the increasing adoption of both residential and commercial and industrial (C&I) solar projects.

How many solar power plants are there in Slovenia?

The review shows there are currently at least 58 locations on the territory of Slovenia where it is possible to set up utility-scale solar power plants with a capacity higher than 10 MW, and connect them to the transmission grid. ELES estimated the total technical potential for connecting solar power plants at 1.031 MW, the statement adds.

Why are solar projects growing in Slovenia?

This expansion is driven by the increasing adoption of both residential and commercial and industrial (C&I) solar projects. The cumulative capacity of solar installations in Slovenia now stands at 1.2 GW, according to data from the Energy Agency of Slovenia.

How much solar power does Slovenia have in 2024?

Slovenia deployed 298 MW of solar in 2024 and 400 MW of PV in 2023. By the end of the first half of 2025, cumulative capacity reached 1.5 GW. This content is protected by copyright and may not be reused.

Does Slovenia have a reliable electricity grid?

Slovenia boasts a generally reliable electricity grid with a robust transmission network that ensures uninterrupted and high-quality power delivery. However, grid reliability can be impacted during winter periods due to increased energy demand and reduced solar power output. 4 We can help you start your own solar module production company.
