

Suriname establishes new energy storage

Overview

Well, Suriname's been quietly rewriting the rules. With its new energy storage projects around Wellington generating 80MW of dispatchable power last quarter [1], this South American gem's become a living lab for renewable integration. Let's unpack what makes this development so groundbreaking.

Suriname establishes new energy storage

[Suriname power grid energy storage principle](#)

The IDB supports the elaboration of a wind atlas for the coastal area, which will assess the feasibility of using wind energy in Suriname. The new operation will finance two solar mini ...
