

Swaziland outdoor power supply is normal

Overview

Do I need a power plug (travel) adapter in Swaziland?

Read our disclaimer. Check your need for a power plug (travel) adapter in Swaziland. In Swaziland the power plug sockets are of type M. The standard voltage is 230 V and the frequency is 50 Hz.

What type of plug does Swaziland use?

Swaziland uses power outlets and plugs of type M. Take a look at the picture below to see what this plug and power socket looks like: Doesn't look familiar?

Do the outlets look different in your country?

You'll need a power plug adapter. Be careful!.

Are there electrical outlets in Swaziland?

No, the electrical outlets in Swaziland are different from those in the United States. In Swaziland electrical outlets of type M are used, while the United States has electrical outlets of types A & B. Do I need a travel adapter for Swaziland?

The electrical outlets and power plugs in Swaziland are of type M (see images) .

What is the standard power socket voltage in Swaziland?

All power sockets in Swaziland provide a standard voltage of 230V with a standard frequency of 50Hz. You can use all your equipment in Swaziland if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia.

Does Swaziland have electricity production?

Swaziland has electricity production through its Swaziland Electricity Company, which operates five power stations. Swaziland does not have natural oil or gas reserves, making the country's oil sector heavily dependent on fuel imports from South Africa.

Do I need a voltage converter in Swaziland?

This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia. If the standard voltage in your country is in the range of 100V-127V (which is most common in the US, Canada and countries in South America) you might need a voltage converter in Swaziland. The standard frequency in Swaziland is 50Hz.
