

# **Swedish Industrial Investment Group Energy Storage Project**

## Overview

---

What is Sweden's largest energy storage investment?

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region.

How many large-scale energy storage systems are there in Sweden?

The initiative, led by Ingrid Capacity in collaboration with BW ESS, consists of 14 large-scale energy storage systems with a total capacity of 211 MW/211 MWh. This milestone investment represents a significant step toward Sweden's goal of achieving a carbon-neutral energy system.

Why should Sweden invest in energy storage?

"Sweden faces increasing electricity demand, which must be addressed by expanding carbon-free energy production, strengthening energy grids, and improving energy storage capabilities. It is an honor to inaugurate the largest energy storage investment in the Nordic region.

How many energy storage facilities will Ingrid capacity build in Sweden?

Ingrid Capacity plans to build an additional 13 energy storage facilities in Sweden by the end of 2024, with a total capacity of 196 MW/196 MWh. By the second half of 2025, the company aims to have over 400 MW/400 MWh of flexible resources in the Swedish electricity grid.

Is Elektra the largest battery storage project in Sweden?

However, neither of these projects had been completed and energised when RES launched the Elektra energy storage project in late April, a 20 MW/20 MWh project billed as Sweden's largest battery storage project at the time.

What is the largest battery energy storage project in the Nordics?

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics. The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower.
