Overview

Which energy storage company introduced voltage control functions at Zhongli project site?

introduced voltage control functions at the Zhongli project site. Recharge Power is one of the few energy storage companies that has received international Tier 1 energy storage factory training and certification, and has professional knowledge in energy storage system operation and maintenance.

What is a single-unit modular energy storage container?

Compared to traditional 20/40-foot metal energy storage containers, our single-unit modular design offers greater space flexibility, enhances space utilization efficiency, and reduces asset risks during disasters. Our containers come in different specifications, making them suitable for various indoor and outdoor energy storage needs.

How are anomalies detected in the energy storage cabinet?

Temperature sensors and smoke detectors are installed for comprehensive monitoring within the energy storage cabinet. Anomalies are detected using our in-house developed EMS system, which continuously monitors environmental temperature, humidity, and battery module details.
