

The first sodium-ion battery energy storage

Overview

Peak Energy shipped out its first sodium-ion battery energy storage system, and the Burlingame, California-based company says it's achieved a first in three ways: the US's first grid-scale sodium-ion battery storage system; the largest sodium-ion phosphate pyrophosphate (NFPP) battery system in the world; and the first megawatt-hour scale battery to run entirely on passive cooling – no fans, pumps, or vents.

The first sodium-ion battery energy storage

Peak Energy launches first grid-scale sodium-ion BESS in US pilot

Peak Energy's BESS is designed without moving parts and features active cooling and ventilation components. Image: Peak Energy Sodium-ion battery energy storage system ...

[Product Information](#)

Sodium Batteries for Use in Grid-Storage Systems and Electric ...

New developments in sodium battery materials have led to developments that could pave the way for lower-cost sodium-ion batteries that can compete with lithium-ion ...

[Product Information](#)

Peak Energy ships first grid-scale sodium-ion battery

Sodium-ion battery storage startup Peak Energy has announced its first shipment of its system that will be used in a shared pilot with nine utility and independent power producers ...

[Product Information](#)

World-largest sodium-ion phosphate battery system launched, ...

Peak Energy claimed that the system is the first ever fully passive megawatt-hour scale battery storage system, the largest sodium-ion phosphate pyrophosphate (NFPP) ...

[Product Information](#)

Sodium Batteries for Use in Grid-Storage Systems and Electric ...

Abstract The future of sodium-ion batteries holds immense potential as a sustainable and cost-effective alternative to traditional lithium-ion batteries by addressing ...

[Product Information](#)

Peak Energy Delivers First Grid-Scale, Sodium-Ion Battery ...

Peak Energy designs and deploys next-gen sodium-ion energy storage that is safer, lower-cost, and more reliable. Our systems remove legacy failure points and enable ...

[Product Information](#)

World's largest sodium-ion battery energy storage project ...

The first part of the world's largest sodium-ion battery energy storage system (BESS) has been launched in China. State media Yicai Global and technology provider HiNa ...

[Product Information](#)

[First sodium-ion battery storage station at grid level ...](#)

The viability of cheaper sodium-ion batteries in an energy storage system at the grid level has been proven by the first utility station that is now ...

[Product Information](#)

[Northvolt develops state-of-the-art sodium-ion battery](#)

Northvolt's first generation of sodium-ion cell is designed primarily for energy storage, with subsequent generations delivering higher energy density ...

[Product Information](#)

First sodium-ion battery storage station at grid level opens with ...

The viability of cheaper sodium-ion batteries in an energy storage system at the grid level has been proven by the first utility station that is now operational.

[Product Information](#)

- ✓ 50KW/100KWH
- ✓ HIGHER POWER OUTPUT IN OFF-GRID MODE
- ✓ CONVENIENT OPERATION & MAINTENANCE
- ✓ PRE-WIRED

Technology Strategy Assessment

Sodium-ion batteries (NaIBs) were initially developed at roughly the same time as lithium-ion batteries (LIBs) in the 1980s; however, the limitations of charge/discharge rate, cyclability, ...

[BYD launches sodium-ion grid-scale BESS product](#)

Chinese EV giant BYD has launched what an executive claimed is the 'world's first high-performance' sodium-ion BESS product, using its proprietary form factor Long Blade ...

[Product Information](#)

Peak Energy Unveils First Grid-Scale Sodium-Ion Battery System ...

A U.S.-based business called Peak Energy has announced the launch and distribution of their sodium-ion battery energy storage system (ESS), which uses a patent ...

[Product Information](#)

First US Deployment of Sodium-Ion Battery for Affordable Energy Storage

The US has launched its first grid-level energy storage system using sodium-ion batteries, developed by startup Peak Energy, which is safer and more affordable than ...

[Product Information](#)

China launches world's first grid-forming sodium-ion battery storage

China launches world's first grid-forming sodium-ion battery storage plant The Baochi Storage Station in Yunnan integrates lithium and sodium-ion technologies at scale, a ...
