

Tianlian 5g base station equipment

Overview

How many 5G base stations will China build in 2025?

China plans to construct over 4.5 million 5G base stations in 2025 while introducing additional policy and financial incentives to support industries expected to shape the next decade, the country's Ministry of Industry and Information Technology (MIIT) announced during its annual work conference.

How big is the 5G base station equipment market?

The 5G base station equipment market is estimated to reach US\$52.733 billion by 2030 from US\$29.865 billion in 2025, growing at a CAGR of 12.04%. 5G base stations form the backbone of next-generation wireless networks, enabling enhanced bandwidth, ultra-low latency, and broader coverage to support rising connectivity demands.

How many 5G stations are there in China?

Stock photo of a network tower. Base stations offering high-speed fifth-generation (5G) mobile networks have now exceeded 3.19 million, the Ministry of Industry and Information Technology (MIIT) in China has said. The country now hosts 22.6 5G stations for every 10,000 residents, CGTN reported.

How 5G technology is transforming connectivity?

5G technology is revolutionizing connectivity, and the manufacturers of 5G equipment are leading this transformation. From modems and base stations to RAN, antenna arrays, and core networks, these companies are providing cutting-edge solutions. Leading vendors are offering innovative products to enhance network speed, coverage, and efficiency.

What are the different types of 5G base stations?

From the perspective of equipment architecture, 5G base stations can be divided into different architectures such as BBU-AAU, CU-DU-AAU, BBU-RRU-Antenna, CU-DU-RRU-Antenna, and integrated gNB.

Who makes 5G in China?

A paid subscription is required for full access. As of 2023, 58 percent of all 5G base stations in China had been manufactured by Huawei. Its closest competitor was ZTE with a market share of 31 percent. Both telecom manufacturers have maintained a similar market share throughout all bidding rounds since 2020.
