

Timor-Leste Energy Storage Equipment Procurement

Overview

Why should Timor-Leste invest in solar & storage infrastructure?

José added: “The investment in Timor-Leste’s solar and storage infrastructure is transformative. It will help reduce dependence on fossil fuels while improving grid stability and energy access across the country”. José de Ponte was supported by special counsel Marnie Calli, senior associate Lisa Huynh and solicitor Jeraldine Mow.

How much does package 6 cost in Timor-Leste?

The estimated total cost of the project is \$50 million, which includes ADB financing of \$35 million and government counterpart of \$15 million for rehabilitation of distribution network. The project’s tentative implementation period is from 2021 to 2026. Package 6 will be financed 100% by the Government of Timor-Leste.

What does NPC do in Timor-Leste?

In Timor-Leste, the National Procurement Commission (NPC) has conducted procurement of infrastructure funded projects. As Power Distribution Modernization Project is one of the infrastructure projects, NPC will handle the procurement for contractor and consultants in accordance with the government Decree-Law.

Does Timor-Leste rely on diesel fuel?

Project's partner in DLA Piper’s Finance practice José de Ponte commented: “Timor-Leste has long relied on diesel fuel to power its grid, placing a significant financial burden on the state and end users.

What does NDA do in Timor-Leste?

NDA has established its presence in all cities in Timor-Leste. The key functions of NDA are to conduct assessments of the merits and feasibility of capital development projects, supervise, oversee and assure quality of projects for

the capital development program and coordinate with relevant ministries. Major Projects Secretariat (MPS).

Who is considered a specialist contractor in Timor-Leste?

They are considered specialist contractors. DAS has heavy line construction portion, equipment supply, and the works are in the field mainly outside of Dili and spread throughout Timor-Leste. If DMIS is packaged with DAS, the potential contractor will be a distribution facility construction contractor who will have DMIS as a subcontractor.
