

UAE Photovoltaic Energy Storage Policy

Overview

Why should UAE invest in solar power & battery energy storage?

The world-leading project reflects the vision and commitment of the UAE leadership in driving socioeconomic and environmental progress. The accelerated integration of solar power and advanced battery energy storage sets a new benchmark in clean energy, driving sustainability and reducing carbon emissions.

What is the small-scale solar PV energy netting regulation in Abu Dhabi?

In Abu Dhabi, the Small-scale Solar PV Energy Netting Regulation was issued in 2017. The regulation sets out an energy netting (net-metering) system, whereby owners are credited for any surplus electricity produced by their solar PV panels beyond what is used in their own premises.

When did solar power start in Abu Dhabi?

In Abu Dhabi, the Masdar City 10MW solar PV plant became operational in 2009, which was the first grid-connected renewable energy project in the UAE. Another Masdar project, the Shams 1 solar power project, a 100MW CSP plant, using parabolic trough technology, became operational in 2013.

Is the UAE a good place to invest in solar power?

Whilst the UAE market with its recent regulations and business model may be selective in allowing certain investors to set up shop in the Emirates, the fast paced developments in the solar sector is promising, making the UAE a strategic player in the production of solar capacity.

Do IPPs provide solar power in the UAE?

More than 90% of power generation in the UAE is now provided by IPPs, requiring contractors/investors to have the required experience and expertise in constructing and operating solar facilities.

What are the laws relating to water and electricity in Abu Dhabi?

Law No. (2) of 1998 concerning the organisation of the Water and Electricity Sector in the Emirate of Abu Dhabi and its amendments. Law No. (11) of 2018 concerning the establishment of the Department of Energy, and in particular: Article 4.1 related to the strategic and implementation of plans for the energy sector in the Emirate.

UAE Photovoltaic Energy Storage Policy

[MENA region hits 24 GW \(AC\) of total solar capacity - pv ...](#)

It said that Saudi Arabia, Morocco, Israel, Egypt, Jordan, Oman and the UAE are key players in developing battery energy storage facilities, with more than 20 GWh of ...
