

UK energy storage major investment projects

Overview

Listed below are the five largest energy storage projects by capacity in the UK, according to GlobalData's power database. GlobalData uses proprietary data and analytics to provide a complete picture of the global energy storage segment.

The Sunnica Solar-plus-Battery Energy Storage System is a 500,000kW lithium-ion batteryEngland, the UK. The electro-chemical battery storage project.

The EFDA JET Fusion Flywheel Energy Storage System is a 400,000kW flywheel energy storage project located in Abingdon, England, the UK. The rated.

The Penso Power-Hams Hall Battery Energy Storage System is a 350,000kW lithium-ion battery energy storage project located in Hams Hall, North.

The DP World London Gateway - Battery Energy Storage System is a 320,000kW lithium-ion battery energy storage project located in Thurrock, Essex, England.

Two leading UK-based energy firms, AMP Clean Energy and Pulse Clean Energy, have announced major investment milestones in August 2025, securing a combined total of over £495 million to expand their Battery Energy Storage System (BESS) operations across the country.What are the largest energy storage projects in the UK?

Listed below are the five largest energy storage projects by capacity in the UK, according to GlobalData's power database. GlobalData uses proprietary data and analytics to provide a complete picture of the global energy storage segment. Buy the latest energy storage projects profiles here. 1. Sunnica Solar-plus-Battery Energy Storage System.

Could a new energy storage scheme help the UK achieve energy independence?

The UK is a step closer to energy independence as the government launches a new scheme to help build energy storage infrastructure. This could see the first significant long duration electricity storage (LDES) facilities in nearly 4 decades, helping to create back up renewable power and bolster the UK's

energy security.

How has energy storage changed in the UK?

RenewableUK's 'EnergyPulse' energy storage report showed that the total pipeline of battery projects has increased from 50.3GW a year ago to 84.8GW, an increase of 68.6 per cent, or 34.5GW. Operational battery storage capacity has grown to 3.5GW, while the capacity of projects under construction has reached 3.8GW.

What is the long duration energy storage Investment Support Scheme?

Long Duration Electricity Storage investment support scheme will boost investor confidence and unlock billions in funding for vital projects. The UK is a step closer to energy independence as the government launches a new scheme to help build energy storage infrastructure.

What is the biggest battery storage project in the UK?

The 1,400MW (3,100MWh) project will be the largest battery storage project in the UK, and one of the largest in Europe. The project was approved by Doncaster Council on 28 January 2025 and will help strengthen the local economy by creating jobs during the construction and operation of the facility.

What if the UK has a strong energy storage industry?

If the UK establishes a strong domestic energy storage industry, it can export storage capacity and technologies. Storage would reduce the UK's dependence on costly, polluting and uncertain fossil fuel imports. Great Britain currently has 2.8 gigawatts (GW) of LDES across four Pumped Storage Hydro (PSH) facilities in Scotland and Wales.

UK energy storage major investment projects

More than £1bn investment secured for UK's largest BESS project

10 hours ago · A major £1 billion-plus investment has been secured for the UK's largest battery energy storage system (BESS) project at Thorpe Marsh in South Yorkshire.
