

Ukraine invests in solar panels

Overview

PVTIME – Despite the ravages of war, Ukraine achieved significant growth in the PV market in 2024, with new installed capacity reaching 800-850MW in 2024, according to the Association of Solar Energy of Ukraine (ASEU). This growth was driven mainly by the reliance on self-consumption of PV systems by businesses and households to ensure the stability of electricity supply while meeting the challenges of grid security.

Outdoor Cabinet BESS
50 kWh/ 500 kWh Battery Storage System
Industrial and Commercial Energy Storage

- All in One**
Integrating battery packs
- High-capacity**
50-500kWh
- Degree of Protection**
IP54
- Operating Temperature Range**
-20~60°C(Derating above 50 °C)
- Intelligent Integration**
Integrated photovoltaic storage cabinet
- Rated AC Power**
50-100kW
- Altitude**
3000m(>3000m derating)
