

Uzbekistan solar panels photovoltaic panels

Overview

In addition to mega-scale solar projects, small- to medium-scale solar projects including rooftop solar PV become attractive to developers and consumers thanks to appropriate policy targets and measures. systems could secure clean energy supply in remote areas with good solar resources but no access to the grid.

In an ambitious move towards a sustainable future, Uzbekistan has announced a groundbreaking regulation that mandates the installation of solar panels on all new standard buildings beginning June 1, 2025.
