

Vietnamese energy storage vehicle equipment manufacturer

Overview

While VinFast's \$4 billion North Carolina plant makes headlines, the real action's happening in Vietnam's backyard: CATL and BYD aren't just bringing technology – they're building ecosystems: "Our Vietnamese team can assemble battery packs faster than locals make phở!" Is a battery energy storage system coming to Vietnam?

In September, solar and storage EPC and O&M provider Borrego selected Gotion High-Tech as a supplier of DC-block battery storage equipment for projects in the US, with deliveries scheduled to begin next year. Meanwhile, in Vietnam, the market for battery energy storage systems (BESS) has yet to take off.

Who is the leading battery manufacturer in Vietnam?

Pinaco Pinaco is another prominent player in the Vietnam battery market, with an established footprint and a particular focus on lead-acid batteries. The company produces a diverse range of batteries and has maintained strong distribution networks, enabling it to reach a wide customer base across various industries.

Why should you invest in a battery plant in Vietnam?

This very first and most advanced battery plant in Vietnam will be equipped with European and American-standard technologies that boast an astounding workflow automation rate of 80%. Vingroup is also working with strategic partners, include world's leading companies in pioneering technologies for the production of electric vehicle batteries.
